

## Hassan Mahtat

### **Senior Programme Manager - Francophone Africa**

#### Aflatoun

As the Program Manager for Francophones countries, Hassan works with different partners to implement the Aflatoun Programme and work to establish new partnerships in other countries that have not been involved in the programme.

Hassan finds that Aflatoun is all about what his mother taught him but he didn't have the chance to experience in and outside the school. Prior to Aflatoun, he worked in the fair-trade and organic agriculture oriented private sector.
